SUMMARY

Frontend Developer with 2+ years of experience building responsive web applications using React, JavaScript, HTML, and CSS, and working with the MERN stack (MongoDB, Express, React, Node.js).

EXPERIENCE

Associate Software Developer

Web Minds Technology PVT LTD

August 2025 – April 2026

- Developed and maintained scalable web applications using React.js, focusing on performance and reusable component architecture.
- Built dynamic and responsive user interfaces using React, JavaScript, HTML, and CSS following modern frontend development practices.
- Implemented complex business logic and application functionality, ensuring smooth user experience and optimized performance.
- Integrated REST APIs and handled asynchronous data fetching, state management, and error handling.
- Led a small team of 2–3 developers, providing technical guidance, code reviews, and task management to ensure timely project delivery.
- Collaborated with backend developers and designers to convert UI/UX designs into functional and interactive interfaces.

Associate Software Developer

SkyRocket Ventures

March 2025 – July 2025

- Developed responsive and user-friendly UI components using HTML, CSS, JavaScript, and React.js, ensuring cross-browser compatibility and mobile responsiveness.
- Built and customized Shopify themes using Liquid, JavaScript, and Shopify APIs to create scalable e-commerce solutions.
- Implemented new features and optimized existing functionality to improve website performance and user experience.

Associate Software Developer

Elsner technologies

November 2023 – February 2025

- Collaborated with cross-functional teams to analyze user needs and translate business requirements into technical implementations.
- Participated in sprint planning, requirement grooming sessions, and daily stand-ups in Agile environments.
- Developed and customized Shopify themes, ensuring pixel-perfect, responsive designs aligned with client requirements.
- Built and maintained custom Shopify apps, enhancing store functionality and improving user experience.
- Integrated third-party APIs and connected frontend components with Laravel and SQL backend systems.
- Write clean, maintainable Liquid, HTML, CSS, and JavaScript code, adhering to modern development practices.

PROJECT

Any Time Party Time (MERN)

Web Minds Technologies PVT LTD • January 2026 – March 2026

- Developed a full-stack **food ordering website** named “Any Time Party Time” enabling users to browse and order food seamlessly.
- Implemented an interactive map-based location selection feature integrated with a distance-based delivery system to determine service availability within a defined radius.
- Developed secure and efficient **payment gateway integration** for smooth online transactions.

Ethanol Suite (React Js)

Elsner Technologies • October 2024 – February 2025

- Developed and enhanced the Etoh Suite application, implementing advanced analytics and reporting features to improve business insights and decision-making.
- Identified and resolved critical bugs and performance issues, improving overall system stability and application efficiency.
- Integrated automation functionalities to streamline routine workflows and reduce manual effort across multiple business processes.

Classbox (React Js)

Elsner Technologies • June 2024 – September 2024

- Executed the integration of dynamic components and analytics features in Classbox through React.js, enhancing data-driven decision-making.
- Engineered automated testing workflows within Classbox, elevating software reliability and expediting the deployment cycle through continuous integration practices.
- Introduced modular architecture in Classbox, facilitating scalable feature enhancements and simplifying ongoing maintenance tasks.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Tailwind CSS

Backend & API : REST API Integration, JSON, Node.js ,Express, MongoDB

Tools & Platforms : Git, GitHub, VS Code, Postman
